

| Year | Location | Report | Content |
|-------------|-----------------|-----------------------------|---|
| 2016 | Argentina | Study | Study on the digestability of thin stillage |
| 2016 | Germany | Study | Study on the concept development for the pretreatment of biowaste |
| 2014 | Japan | Feasibility study | Study on the technical feasibility of a prospective biogas plant in Japan |
| 2014 | France | Study | Preparation of studies on the fermentability of sugar beet pulp silage and vinasse in France |
| 2013 | Germany | Study | Investigation on the fermentability of solid waste of the sugar industry |
| 2013 | Japan | Study | Comparison of different biogas upgrading systems in Japan |
| 2013 | South Africa | Technical-report | Technical report on a biogas concept for the digestion of organic waste in South Africa |
| 2013 | The Netherlands | Technical-report | Technical Evaluation Report for a biogas plant in The Netherlands |
| 2013 | Denmark | Technical feasibility study | Technical feasibility study on a biogas concept for the digestion of by-products of a sugar factory in Denmark |
| 2012 | Germany | Study | Implementation and evaluation of a test operation for biowaste treatment for a sewage treatment plant in Germany |
| 2012 | Finland | Study | Study on dry fermentation in Finland |
| 2012 | Germany | Study | Study on the use of the Gorator in biogas plants in Germany |
| 2012 | China | Guidelines | Participation in developing a biogas guideline for Chinese biogas plant operators |
| 2010 | Serbia | Study | Study and preplanning of the re-startup of a cofermentation biogas plant in Serbia |
| 2009 | Panama | Technical-report | Implementation of a feasibility study on fermentation of banana waste in Panama |
| 2008 | Germany | Study | Preparation of a study on marc-fermentation in Germany |
| 2008 | Germany | Study | Preparation of a study on dry fermentation in Germany |
| 2008 | Germany | Study | Study on a combined bioethanol-biogas plant in Saxony-Anhalt |
| 2008 - 2011 | Germany | Research project | Participation in a research project of the "Fachagentur für nachwachsende Rohstoffe" about mono fermentation of corn-silage grown on locations with different soil conditions. "FKZ 22014308" |
| 2008 | Canada | Study | Study on a biogas plant in Canada |
| 2008 | Germany | Technical-report | Preparation of a feasibility study for evaluation of the different options for the fermentation of waste in Baden-Württemberg |
| 2008 | Germany | Study | Preparation of a study in Germany on fermentation of horse manure |
| 2007 | Germany | Study | Pre-Study on fermentation of sugar-beets in a biogas plant |
| 2007 | Germany | Study | Preparation of a study on a technical comparison of main components of biogas plants |
| 2005 | Germany | Technical-report | Preparation of a feasibility study for the extension of a biogas-plant |
| 2004 | Spain | Study | Preparation of a study on mono fermentation of residues from the olive processing in a biogas plant in Spain |
| 2004 | Germany | Study | Preparation of a study on compression experiments with silage |
| 2004 | Germany | Laboratory test | Mentoring of laboratory tests for the fermentation of mother liquor from a dairy |
| 2002 | Germany | Technical-report | Feasibility-study on the construction of a biogas plant in Lower Saxony |
| 2002 | Italy | Study | Pre-study on construction of a biogas plant in Italy |
